# Transferring Credit from International Institutions to Bay College

Students who attend colleges outside of the United States or Canada must have their transcripts evaluated course-by-course by one of the following sources and request a copy of the evaluation be sent to the Admissions Office as part of their application process. The student is responsible to pay any fee incurred.

AACRAO International Education Services - http://www.aacrao.org/credential/index.htm

World Education Services (WES) - http://www.wes.org/

ECE International - http://www.eceinternational.com/education-evaluation.html

International students who have not attended an institution of higher learning must have their high school diploma/certificate verified by one of the agencies listed above. Direct any questions about the transcript evaluation to the Registrar's Office.

#### **Course Equivalencies**

For course by course equivalencies within Michigan colleges or universities, the MACRAO website at <a href="https://www.macrao.org">www.macrao.org</a> hosts the Michigan Transfer Network (MTN) which provides quick and easy data on how your Bay course(s) will transfer within Michigan institutions. In addition, this website provides course equivalencies and transfer guides by clicking on "Michigan College Home Pages", and selecting "Transfer Equivalencies" on the college or university posting. For students transferring out of state, please contact your transfer institution to ensure that your Bay course(s) will transfer.

# **Advanced Placement Program**

College course credit will be granted to students who participate in the Advanced Placement (AP) Program at their area high school and pass the Advanced Placement examinations with an appropriate score. Only those AP courses approved by Bay College faculty will transfer in as Bay College credit. Advanced Placement exam scores must be sent directly to the Registrar to be evaluated for transfer credit.

AP Exam	Required Score	<b>Credit Awarded</b>	Bay College Course Equivalent	
Biology	3	8	BIOL-110 Evolution & Diversity –AND-	
			BIOL-112 Cells & Molecules	
Calculus AB	4	5	MATH-141 Analytical Geometry & Calculus I	
Calculus BC	4	5	MATH-142 Analytical Geometry & Calculus II	
Chemistry	3	10	CHEM-110 General Chemistry I &	
			CHEM-112 General Chemistry II	
English Language & Composition	3	4	ENGL-101 Rhetoric & Composition	
English Literature & Composition	3	4	ENGL-101 Rhetoric & Composition	
Government & Politics (US)	3	4	POLI-111 American Government	
Macroeconomics	3	4	ECON-131 Macroeconomics	
Microeconomics	3	4	ECON-132 Microeconomics	
Physics B	4	8	PHYS-201 Elements of Physics I &	
			PHYS-202 Elements of Physics II	
Physics C (Mechanics)	4	5	PHYS-205 Engineering Physics I	
Physics C (Electricity & Magnetism)	4	5	PHYS-206 Engineering Physics II	
Psychology	3	4	PSYC-201 Introduction to Psychology	
Statistics	3	4	MATH-210 Introduction to Statistics	
U.S. History	3	4	HIST-211 U.S. History to 1865	

# **College Level Examination Program (CLEP)**

The College Level Examination Program (CLEP) is administered by the College Board. CLEP enables those who have reached the college level of education to assess the level of their academic achievement and to use the test results for college credit. Students must have official CLEP transcripts sent directly to Bay College for consideration of transfer. Bay College's CLEP ID# is 1049.

Students planning to transfer to a university should consult that institution's CLEP policies before taking CLEP tests. Some institutions, such as medical schools, do not accept CLEP credits for some subjects, such as biology and chemistry. Students may not earn credit for CLEP subject examinations if the student has already earned credit in the course, was previously or currently enrolled in the course, or has credit in a higher level course in that subject. CLEP credit will not count

toward the minimum 17 credits required to be taken at Bay College for the Associates Degrees. CLEP credits receive no grades and are not calculated in the student's GPA. Only the courses listed below will be considered for transfer and only if the final score is 50 or higher.

# **Military Training Credit**

All veterans having a certified DD Form 214 on file in the Admissions Office will automatically be given credit for two semester hours of physical education. Veterans who feel that other training received in the military is applicable to their program of study may request that such training be evaluated for credit. The veteran must produce proper documentation that will be evaluated by the Registrar based on the American Council on Education (ACE) credit recommendations. Veterans planning to transfer from Bay College to another institution should be aware that the institution may not accept the credit for military training given by Bay College, but will usually wish to re-evaluate the training documentation.

#### **CREDIT BY EXAMINATION**

Credit by departmental examination is available for currently admitted students whose life experience has provided them with advanced levels of skill, usually in the vocational or technical areas. Upon passing the exam with a grade of "C" or better, the grade will be posted to the student's transcript. Department examination is not intended for students who are currently enrolled in the course, have dropped the course, have transfer credit for the course, or have a previous grade for the course. Departmental credit by examination is not intended to replace independent study and may not be suitable for students planning to transfer to a university.

Students are not permitted to take an examination in any course where credit has already been earned in a more advanced course. Students seeking credit by examination should consult with the appropriate faculty. See the Registrar for information on fees and to begin the process of requesting credits by examination.
