

LEARNING OUTCOMES

Associate in Applied Science (AAS)
Program: Early Childhood Care & Education

Upon completion of this program, students will be able to:

1. Explain how child development knowledge is used to create healthy, respectful, supportive and challenging learning environments for young children.
2. Summarize the importance of family and community relationships through the creation of respectful and reciprocal relationships that support families' involvement in their children's development and learning.
3. Summarize the goals and benefits of assessment to positively influence children's development and learning.
4. Design, implement and evaluate meaningful, challenging curricula that promote comprehensive developmental learning outcomes for each child.
5. Demonstrate knowledgeable, reflective and critical perspectives on their work.
