

# Health Careers Certificate

## Why Health Careers?

This certificate lays the foundation for students interested in careers in health care. It is completed prior to being admitted into a transfer program in a variety of health-related fields. This certificate also provides an opportunity for eligible students to complete a co-op experience or a Certified Nursing Assistant program.

## Why Bay College?

The [Health Careers certificate program](#) at Bay College Certificate helps students begin their education before starting a transfer program in a health-related field. It will give them the basic knowledge and skill sets essential for health occupations, preparing them for later studies. Many of our students utilize the phlebotomy "elective" option to complete their certificate by participating in a 160 hour co-operative experience at an area healthcare facility to become a Certified Phlebotomist.

## Beyond Bay College

Students interested in transferring to a four-year institution to obtain a bachelor's degree or higher may find opportunities in the following areas of study:

- **Biotechnology Research and Development**
- **Diagnostic Services**
- **Health Informatics**
- **Support Services**
- **Therapeutic Services**
